

Representatives of the 20 self-titled most important industrial nations and emerging countries will meet in Hamburg on 7th & 8th July in order to speak about the wellbeing and evil of others, increasing own powers. and strengthen already existing power relations. Some of the focal subjects will be the promotion of women, migration and flight and so-called "development" policy. We will stand up against this summit. We do not accept the idea of binary gender and we view patriarchy, racism, neocolonialism and capitalism amongst others as mechanisms of exploitation that depend and strengthen each other. Especially in times of emerging antifeminism and racism, with a rising number of attacks and harassment against homosexuals, trans\* and inter\*, our resistance as WLTG\* will be visible!

We would like to invite all FLTG\* people one night before the summit on Thursday, July 6th, in order to form a huge and powerful block at the international anticapitalist demonstration "G20 – Welcome to hell"! There will be a queer block as well, walking right next to us at the demo. The rally will start already 4pm at St. Pauli Fischmarkt.

On the day after, Friday July 7th, there will be blocking actions with the aim to close the access roads everywhere in Hamburg.

The queer feminist alliance will be part of the purple finger (Lila Blockade-Finger) of the action "BlockG20 – Colour the red zone". We have made the decision for this action, because we find it important to offer a queer feminist meeting point especially for people from outside Hamburg in order to be many and to make our demands visible!

Furthermore we show our solidarity to other actions happening on Friday and before the summit and would like to call for mass protest. Be it hedonistic mass hang-outs (July 4th) and night dance demos (July 5th), the action called "Shut down the Harbour" on Friday as part of the #Hamburg City Strike and many other events. We will conquer the streets and won't accept the status quo. Our queer feminism isn't just a single use struggle with which we view power relations separated from each other and fight them separately. Instead we want to stand up in solidarity against current circumstances that will be vulnerable in Hamburg in July.

We will also organize an antipatriarchal walk along the fence in order to both, make fights and struggles of WLTl\* from all parts of the world visible and demonstrate why we do not approve of the logic of the G20 states. In contrast to the city wide blockings this walk along the fence will hopefully be as accessible as possible. By accessible we mean to make this event as little confrontational as possible so that all people could join the walk. Stay tuned for more infos!

Finally, on Saturday, 8th July there will also be a queer feminist meeting point at the major demonstration. We can walk together within the anticapitalist spectrum, so come in large numbers! On top of that are we invited to join the internationalist Womens-Block, which we can turn up to as individuals or small groups after meeting up at the queer feminist meeting point. The internationalist Womens-Block will be the forefront of the Berxwedan Jiyane Block - the kurdish and internationalist movement, which will be marching as second or third position. The Womensblock is open to Trans\* people.

**We are looking forward to being many!  
Join us in masses and take care of each other!**

Short facts as overview:

**“G20 – Welcome to Hell” # launch demo # 6 July # FLTI\* block & queer block**

**“BlockG20 – Colour the red zone” # 7 July # violet blocking finger & antipatriarchal walk along the fence # WLTl\* are organizing # all genders welcome**

**„Solidarity without borders instead of G20!“ # Major demo # 8 July # queer feminist meeting point**

**Against current existing conditions! Against the summit!  
Fighting for a beautiful life!**

**Reclaim the streets!**

**No need for doMENation!**
